

ROYAL EDICT CONFIRMS THE CONGER DISPATCH

All the Legationers are Alive at Peking Except German Minister.

STRENUOUS EFFORTS TO PROTECT THEM

Remy Reports All Quiet at Tien Tsin—Attempt to Stop Li Hung Chang From Going to Peking—All Europe in the Wildest State of Excitement—Troops Pouring Into Chinese Territory by the Thousands—Determined Attempt Will be Made to Relieve Peking—Natives are Retiring From Tien Tsin.

Washington, July 21.—[Special Telegram]—At ten o'clock this morning the Chinese minister received from the viceroy of Nanking, Liu Kun Yi, a royal edict dated today as follows: "According to an edict of July 18, with the exception of the German minister, who was killed by anarchists, with regard to which vigorous measures are being taken to investigate and punish the guilty parties, all the other ministers, to whom strenuous efforts are being made to afford protection, are fortunately unharmed."

Sheng, director of telegraphs at Shanghai, in a telegram to Wu verifies the edict.

Field Proved a Cul de Sac

New York, July 21.—[Special Telegram]—A Chefoo dispatch describing the fighting at Tien Tsin July 13 when the Ninth suffered so severely, says: "The British General Doodward's plan for the Americans to support the Japanese, was not made clear to Liscum. Doodward lays the blame for the blunder and sacrifice of life on Liscum, but

COLONEL E. H. LISCUM.

Doodward's chief of staff was heard to say when Liscum moved: 'Get it down the road anywhere, quickly.' Liscum led his men through the gate in open order under fire and passed over the bridge to a field that proved a cul de sac. Three thousand rifles turned on them. At 12:30 Liscum picked up the colors and stood looking for a ford. The next instant a sharpshooter put a bullet through his abdomen. 'I've got it,' said Liscum. 'Get at them if you can; don't retreat; keep on firing.'

Russians Occupy Taku Arsenal

Taku, July 21.—[Special Cablegram]—The Chinese in Tien Tsin continue to retire. The Russians have occupied Taku arsenal north of Tien Tsin, unopposed.

To Advance in August.

London, July 21.—[Special Cablegram]—A Chefoo dispatch says the commanders at Tien Tsin have concluded it would be useless to try and advance to Peking before the middle of August.

Confirm Conger's Message

Brussels, July 21.—[Special Cablegram]—The foreign office this morning received private dispatches tending to confirm Conger's message.

Germany Doubts the Message

Berlin, July 21.—[Special Cablegram]—The German officials regard Conger's message as a week old. The Kaiser will not take one backward step.

To Arrest Li Hung Chang

Shanghai, July 21.—[Special Cablegram]—The British cruiser Bonaventure left Woo Tung early this morning; it is reported, to seize the Au Ping with Li Hung Chang on board.

Report From Admiral Remy.

Washington, July 21.—[Special Telegram]—Admiral Remy cables from Taku, July 20th as follows: "Tien Tsin is quiet. The latest reports from Russian sources, July 13th, says that the legations at Peking are still holding out. The reliability of this information is uncertain. Major Regan, Captains Noyes and Bookmiller, Lieutenants Lawton and Schoffel, wounded Nineteenth

Infantry officials and Second Lieut. Jolly of the marine corps are the sick now aboard the Solace. Expect about thirty more wounded men. Will then send them to the Yokohama hospital.

WILL WAGE A DEADLY CAMPAIGN

But Beyond the Capture of Peking the Powers Have No Plans.

London, July 21.—It was not until today that the full measure of the wrath of the nations against the barbarous Orient could be realized and understood. Never has such a mighty cry for retribution swept over the earth. Nothing adequate to quench the thirst for revenge has been suggested and the feeling of impotence is beginning to exasperate Europe.

The most common suggestion is to raise Peking and demand from whoever is in power their two heads for every foreigner slain. The reply would probably be, "Certainly, take 10,000 heads instead of 2,000," and they would be delivered without arousing more than the most indifferent emotion in the Oriental heart. Indeed, few of China's 450,000,000 would ever hear of the incident.

The impotence of civilization against the inertia of those yellow hordes is so complete that it would be almost as useless to flay the waves for drowning a shipload of human beings as to attempt to punish China. Yet something must be done. No one knowing the Orient believes that it will be possible to lay hands on those actually guilty.

In the face of this situation it is not surprising that the powers are unable to agree as yet on anything beyond the capture of Peking in a campaign as ruthless and as deadly as modern engines of war can make it. The uncertainty as to future plans implies no disagreement. France will uncompromisingly oppose any division of China and even any change in the so-called spheres of influence in that country.

ALLIED TROOPS AT HONG KONG

Residents of That City Fear a Great Uprising.

Hongkong, July 21.—After the departure of Li Hung Chang the French landed 300 Anamite sailors from two gunboats. The British also landed guards from the gunboat Redpole to protect the European settlement. The Canton people are somewhat unsettled, though restrained by the viceroy's proclamations. The rumor that Kang Yi is to succeed Li Hung Chang is not favorably received by the merchants here, despite the assurances of the viceroy. Hongkong residents fear a rising at an early date. Sun-Yat-Sen, of the reform party, is active and may precipitate trouble. It is reported that Sun-Yat-Sen is in hiding somewhere in the vicinity and he may be in Hongkong.

It is generally believed that Li Hung Chang is going north for a conference with Liu-Kun-Yi, Cheng, and Ching-Tung of Nanking. This belief is strengthened by the simultaneous departure of Customs Commissioner King for Shanghai, probably to act as adviser.

According to the latest dispatches, fighting continues in the vicinity of Biagovchensk, though the Russians insist they still hold the town. One Shanghai correspondent declares that only 300 Russian soldiers were in the town when 15,000 Chinese attacked it. It is said Li Hung Chang has gone north in order to negotiate upon three conditions—first, that a conciliatory attitude be adopted forthwith; second, that the "Boxers" be energetically suppressed, and, third, that he himself is not to be held responsible even if he fails to obtain satisfactory terms.

PEKING IS REMOVED IN.

Heavily Armed Force of 300,000 Boxers Surround City.

Chefoo, July 21.—Native Chinese here report that there are in and around Peking at least 300,000 Chinese troops, and that the Boxers are armed with the best and most modern weapons.

THIRD TICKET IN NEBRASKA

Middle of the Road Populists Make Non-Insultations—Oppose Fusion.

Grand Island, Neb., July 21.—The middle of the road populists of Nebraska organized here last night under the name of the populist party and nominated an entire state ticket, including presidential electors. Three-fourths of the counties were represented in the convention by regularly chosen delegates. There was unanimous opposition to fusion with any party on candidates or platform.

Wharton Barker, candidate for president, ex-Congressman Howard of Alabama and National committeeman Felt of Illinois addressed the delegates. Mr. Barker claimed that he would receive 1,500,000 votes at the fall election.

Besides reaffirming the Cincinnati and the Omaha platforms the convention declared explicitly in favor of woman's suffrage. It denounced the state board of transportation as a fraud and protested against the creation of unnecessary public offices to reward political henchmen and office seekers.

BANKER GIVEN FIFTEEN YEARS

J. R. Clements Sentenced for Wrecking a Minnesota Institution.

LaCrosse, Wis., July 21.—Joseph R. Clements of this city has been sentenced to serve fifteen years in the state's prison of Minnesota for wrecking the Filmore County bank of Preston, Minn. He was tried on two indictments and found guilty on both. He was sentenced to five years on the first and yesterday Judge Kingsley overruled a motion for a new trial in the second case, and sentenced him to ten years more.

VOLCANO KILLS TWO HUNDRED

Eruption of Mount Azuma in Japan Brings Disaster

Yokohama, July 21.—Mount Azuma, near Baudaisan, which was the scene of a volcanic disaster in 1888, broke into eruption Tuesday, July 17. Two hundred persons were killed or injured.

Several villages were engulfed by the streams of lava and great damage was done in the adjoining districts.

Lightning Strikes Church.

Oregon, Wis., July 21.—The Presbyterian church of this place was struck by lightning Thursday night and the steeple badly damaged. The loss is covered by insurance.

- July 13—Shen reports definitely that there had been a massacre.
- July 16—Full details of the final battle around the legation came from Shanghai—Every body dies at Sunrise—Prince Ching among the slain.
- July 18—Minister Wu hears that everybody was safe up to July 9.
- July 19—Li Hung Chang says all legations were safe to July 8.
- July 20—Message (undated) from Conger says legation is under bombardment, and fears general massacre.

The mystery hidden behind the walls of Peking has riveted the attention of the civilized world for nearly two months. On June 1 the foreign legations in Peking were occupied by 515 representatives of the elite, the noble, the cultured of the six most powerful and enlightened states of the modern world, besides notables of half a dozen minor states, each in its way representative of the science and progress of the nineteenth century. There were seventy-nine missionaries. And with these their wives and children.

Six weeks ago the vast city of Peking was already overrun by hordes of fanatic and incomprehensible rustics. In all times each legation had a small guard of a dozen or score of soldiers; these were reinforced by 400 sailors and marines, proportionately contributed by the sea powers concerned.

At the most there were at the beginning of the great mystery some 500 armed foreigners landed on July 1 from the warships, of whom perhaps 200 spoke or understood the English language.

These were distributed among the respective legations, which are scattered at wide intervals, in extensive private grounds, along the street known as legation street, but which in Peking is called, from its sanitary neglect, the "street of stinks."

The origin of this the deepest mystery of modern times—A mystery literally unparalleled in the history of all times—must really be sought in the Boxer movement, which began so far back as October of last year with the murder of two missionaries in the Western province of Shan Tung.

The rioting, which has since ensued

TWO CHILDREN DROWN

Mabel Garvis of Milwaukee, and Beatrice Pearson of St. Paul, Fall Into a River.

Two Rivers, Wis., July 21.—Mabel Garvis, aged eleven years, of Milwaukee, and Beatrice Pearson, aged twelve, of St. Paul, were drowned in the river here last evening.

They were walking along the boom stick when they both fell to the water and as the current was swift they were carried down. Henry Schultz, a sixteen-year-old boy, saw the children fall and jumped into the water and swam to them. Both girls were alive when he reached them and had they not been crazed by excitement both, no doubt, would have been saved. Schultz got hold of both, but they grabbed him so tightly that he could not swim.

He tried to make them understand that he could save them, but they clung to his arms and neck and pulled him beneath the water. When he freed his arms the current had swept them away.

Young Schultz barely succeeded in reaching the shore himself. The life savers went to the scene of the accident and found both bodies, but neither child could be resuscitated.

BELOIT MAY GRANT IT

Expected That Council Will Grant Rockford, Beloit and Janesville Electric Line Franchise.

Beloit, Wis., July 11.—The question of granting a franchise through the city to the Rockford, Beloit and Janesville electric railway company is being very much discussed and the prejudice against the idea, that once existed is wearing away. The matter now will be the conditions of the franchise. Winnebago county, Ill., that adjoins Rock county on the south has granted a right of way through that county and the promoters are laboring with citizens of Beloit and Rock county to carry out the plans of the company in this county.

License for Beloit Dogs

Beloit, Wis., July 21.—The common council has passed an ordinance licensing dogs. The fee is \$1 for males and \$3 for females. After August 1 all dogs must wear a tag on penalty of death.

ARRESTS IN DEAD BABY CASE

Doctor and Wife Admit Abandoning Body of Infant

Milwaukee, Wis., July 21.—The mystery surrounding the dead body of an infant which was found Thursday night in a satchel in the Plankinton drug store was cleared up last night by the arrest of Dr. Charles D. McDonald and his wife of Mineral Point, Wis.

McDonald and wife admitted that they left the satchel there on Monday. McDonald says the baby was the child of the daughter of a wealthy farmer living near Mineral Point. It died of pneumonia, he says, but this the police doubt. The couple kept the body in their room at the Clipper House for two weeks.

McDonald and his wife are said to be victims of the cocaine habit. McDonald attempted to commit suicide by taking a large dose of the drug.

BLUE AND GRAY CLASH AT ATLANTA

General Gordon Takes Exceptions to General Shaw's Speech—Tilt At the Big Barbecue.

Atlanta, Ga., July 21.—The vast audience at the blue and gray barbecue and speechmaking yesterday afternoon listened with bated breath to a tilt between Generals Gordon and Shaw, the respective heads of the United Confederate Veterans and the Grand Army of the Republic.

In his address General Shaw made a statement to the effect that the confederate flag, as the emblem of a dead nation, should be displayed only on such reminiscent occasions as that of today. He added that he did not approve the custom of detailing the civil war in vogue in southern school histories and declared that it revived bitterness and prejudice with the rising generation, whereas a discreet silence would be judicious.

At the close of his speech General Shaw was given an ovation, but General Gordon immediately mounted the platform and in clarion tones took issue with the sentiments expressed by the G. A. R. commander as outlined above. He prefaced the speech by declaring that he had the utmost love and respect for General Shaw, but that he could not silently submit to having his children taught that their fathers were in error in supporting the confederate side.

He declared that in the sight of the God and to their own honest conviction the confederates were right in the 60's and that they were not yet willing to admit that they were wrong. They were proud of the fact that they had supported the confederacy and he, for one would take care that his children and his grandchildren imbibed the same views. He was not less an American at present for these opinions, he said, but that southerners could not blot out the civil war from the minds of their children without stultifying manhood.

These expressions were applauded frantically by those present and Gen. Shaw lost no time in again addressing the audience. He declared that on essentials he and General Gordon were agreed and that were the two speeches read side by side they would be discovered to be of almost the same text. Thus the incident passed away, the two generals spending the remainder of the afternoon arm in arm.

HE ATE HIS COMPANION

Russian Convicts Awful Confession—Admits He Killed and Devoured a Fellow Fugitive.

Moscow, July 21.—A convict named Borovenko, who escaped to the mainland from the penal colony on the island of Saghalien, has just been captured. He confesses that while he and his fellow fugitive were concealing themselves in the front swamps of the maritime province he killed and ate his companion to save himself from starvation.

BIG BATTLE RAGES AT MIDDLEBERG

Roberts is Making an Attack With All His Force on the Boer Army.

London, July 21.—[Special Cablegram]—A dispatch from Cape Town says a big battle is in progress at Middleberg where Roberts made an attack in force on the Boers. The dispatch says Kruger is with the Boers urging them to fight to death.

WILL SEND 4,000 MARINES AT ONCE

Navy Supplies Fighters in China That Army Cannot Spare.

TROOPS NOT AVAILABLE

MacArthur Declares They Cannot be Drawn From the Philippines.

PREPARE FOR LONG SERVICE

Washington, D. C., July 21.—Four thousand additional marines will be sent to China at once. The marines will act in conjunction with the regular troops, and will add materially to America's contribution to the allied army.

The decision to send so large a force of marines to China was reached at a conference between Secretary Long, General Heywood, and Colonel F. L. Deney, Commander and Chief Quartermaster of the Marine Corps. They were summoned to the Navy department immediately after Minister Conger's cipher message was received.

Relief Will Be Sent.

Minister Conger's message was an appeal for speedy relief, and while some officials were disposed to regard the message with suspicion, for the reason that it was possible that the designing Chinese had procured the State department cipher and had sent the dispatch in the code language of this government, steps were at once taken to send the relief.

The message sent originally by Mr. Hay was in cipher and translated read: "Send tidings, cipher."

The reply was deemed a sufficiently direct answer, although as some one suggested later, the message received might have been prepared weeks ago and held up at Peking. It was such a message as Mr. Conger might have sent on any day for the last month. The officials, however, regarded it as genuine, and the conference in Mr. Hay's office discussed the measures of relief urged by Conger.

Soldiers Not Available.

Secretary Root ascertained that the army was not in position to materially increase the force now in China within the period which would insure the rescue of the foreigners at Peking.

Adjutant General Corbin was consulted as to the possibilities of immediate reinforcement of the command in China, but it was recognized at once that the attempt at relief must be undertaken with a force now in Tien Tsin with the augmentation of course of the military commands of the other powers.

It was then that Secretary Long called the marine corps officers to a conference with the result as stated. The plan to send 4,000 marines was communicated to President McKinley over the long distance telephone, and he at once gave it his official sanction.

Authorized Total of 6,000

It will be necessary to draw upon the full strength of the corps, which has an authorized total of 6,000. The next batch of marines, 500 in number, will sail on July 28 from San Francisco under Major Randolph Dickins, is made up of men from all the naval stations on the Atlantic coast and the marine guards of the battleships Massachusetts, Indiana and Kentucky.

It is the intention of the Navy department to immediately replace these marines, however, by men who are enlisted at the recruiting stations, a new one having been opened at Chicago.

There are 530 marines now in China, not counting the small command of fifty-three men at Peking, none of whom may be alive. In addition there are 220 marines under Major Biddle who sailed on July 3 from San Francisco, and this will bring the total strength of marines in China up to 750.

SEND A KITE THREE MILES IN THE AIR

Record Broken at Blue Hill Observatory by a Combination Tandem Arrangement.

Milton, Mass., July 21.—The record for high kite flying was broken last evening at Blue Hill observatory, when a height of 15,000 feet, or 60 feet more than three miles was reached with a line of six kites flown from a tandem. Five of these were of an improved box pattern and one a ribbed kite.

The greatest height was reached with four and three-quarter miles of steel piano wire used as a flying line. The temperature at the highest point was about 30 degrees while at the sea level it was 80 degrees. The winds velocity at the highest point was about twenty-six miles an hour and the air was dry.

No clouds were encountered by the kites, which were visible from the ground although it was difficult to see the highest one without a telescope.

Dr. S. B. Buckmaster and family leave today for an outing at Delavan Lake.

By order of the Rock County Republican Committee,

THOMAS S. NOLAN,

Chairman.

WM. A. JACKSON,

Secretary.

## W. C. T. U. MAKES WAR AGAINST ABSINTHE

Women Are Afraid That Its Ravages May Become as Frightful in America as in France.

Chicago, July 21.—Absinthe drinking is declared by the women of the Women's Christian Temperance Union to be fast becoming a habit that threatens to sap the manhood of the nation as it has that of the French people, and a crusade of extermination is to be waged against it. The odier has gone out from the national headquarters at Evanston that this newer form of alcoholic poison, to which the union has sworn eternal enmity, shall at once become the object of a bitter war.

Mrs. Helen M. Barker, the national treasurer of the organization, on a visit to Paris five years ago had a chance to see the hold the absinthe habit had on the people of that city, and its debauching effects. She says that he never dreamed it would get a similar grip on the American people, and that this nation cannot move too soon to stamp it out.

The agitation of the question is to be inaugurated at once. Statistics will be secured showing how much of the green-hued elixir is consumed and what the swift and awful effects are.

#### The Circus at Washington.

The great Wallace shows which exhibit in Janesville, Friday, August 3rd, recently visited Washington City, D. C. The Post of that city said: "If there is any city which is a better show town than the National Capital it is not down on the map. The Wallace Show pleased two big throngs yesterday, many people being turned away. The circus was a success both for the management and for those who wanted good entertainment. The city was turned over almost entirely to the big attraction. The program commenced promptly and in earnest from the start. No one but the child whose first visit it was to the circus could possibly tell all that was down. Hardly anything could have been more wonderful than the acrobatic feats performed by the justly celebrated Nelson family and especially by the five year-old tot."

The great Wallace Shows will exhibit in Janesville on Friday, August 3d.

## WARNING EVANSVILLE LADS

The Enterprise Tells Them Not to Visit Janesville O'Nights.

Some parents are quite concerned about their boys from 15 to 20 years of age, taking frequent night visits to Janesville, many times endangering their lives by riding upon the "blind baggage" given their parents considerable concern about their safety, as well as some of the haunts they visit in the city which are not considered any too respectable. Boys, if you care for your self-respect and love your parents, you will take warning from this notice and discontinue such visits and be happy in your own homes, giving your parents no further concern, for you are deceiving no one, and if you are, you are deceiving yourself the most, and it is you who will eventually suffer the consequences.

## NEW TOBACCO WAREHOUSE

Rapid Work Getting Ground Ready for Foundation Walls.

Work on the excavation for the foundation of the new tobacco warehouse, to be built by Sylvester & Son on the lot recently bought from Adam Holt, is well under way. The contractors have a number of men and teams at work and rapid progress is being made in getting the ground ready for the foundation. A large quantity of stone is already on the lot, and the stone cutters are getting it in shape to commence on the foundation as soon as the hole for the cellar is completed.

## DULLEST SEASON IN TOBACCO YEAR

Prospects for the Growing Crops Are All and Even More Than Could be Hoped For.

Right in the midst of the dullest season of the year there is little to report from this or any other market of the state. The few transactions coming to our notice is the sale of 150 boxes in three lots by O. L. Cullton, and George Rumrill of Janesville, reports the sale of 140 cases of '98 and '99. He has also made a small purchase of 65 cases of '99. A few of the warehousemen are shipping out for sales made some little time ago. An occasional eastern buyer drops into this market but from all appearances it is only for sociabilities sake.

The prospects for the growing crop are all and even more than could be hoped for at this time of the year. Both the early and the late set fields have been benefitted by the recent rains and there is every reason to believe that an abundant crop is in store for the growers.

The total shipments out of storage reach a total of 1750 boxes and since last report only 958 cases have been exported from New York.—Edgerton Tobacco Reporter.

## HORSEFLESH AT LAKE GENEVA

Fried in Turnouts Taken by Summer Residents.

Lake Geneva, Wis., July 21.—Fast boats and fine horse flesh abound at this popular Wisconsin resort. The yatching people are getting ready for one of the most interesting races ever held on the lake and the display of equipages is growing more extensive each year. J. W. Sherman, one of the best known horsemen in southern Wisconsin, says that on Friday evening of each week there is the best display of horses and vehicles at the Northwestern depot that can be shown anywhere in the state on any occasion.

The cottagers are accustomed to drive to the 5:15 p. m. train to meet friends who come up to spend Sunday and every owner of a team seems to be making the best showing possible, the well-bred and well-kept animals in glistening harness. There are modern turnouts of every description and drivers and footmen abound. At only one other place in the state is the showing rivalled, at Oconomowoc, where much money is expended in maintaining stables.

## HE LEASES A NEW BUILDING

Alderman Sennett Spends Five Hundred Dollars in Remodeling Saloon

Alderman James Sennett is now in possession of one of the best fitted and most model saloons in this city. He has leased the building at 114 West Milwaukee street. During the past few days painters, plumbers and paper hangers have been busily engaged, and at a cost of \$500 the interior has been remodeled. Alderman Sennett has been in business in Janesville for fifteen years and is possessed of a host of friends, who will wish him well in his new location. Saturday evening of this week Alderman Sennett will open his place of business and will serve an elaborate free lunch. A cordial invitation is extended to all.

## EDGERTON EDITOR MAKES AN APOLOGY.

Someone has made a two-faced error, and from indications it looks as though it might be us. Perhaps it is, for a man in the newspaper business is just as liable to "put his foot in it" as any ordinary being in other walks of life. In last week's issue of the Reporter announcement was made of the marriage of Miss Ada Thoroughgood of Janesville, to Mr. D. J. Conger of Chicago. Notwithstanding the aim of the Reporter to correctly announce passing events, Miss Thoroughgood and Mr. Conger are two separate and distinct individuals, not bound together by any solemn vows to love, honor and support one another. That is to say they have made no such declaration before any legalized court, minister or justice of the peace. In the hereafter when the sign is right, two hearts that beat as one and two minds have but a single thought, Miss Thoroughgood and Mr. Conger may be "applied" in a way that the law and their intimate friends will recognize them as one. When the time comes the Reporter would like to be the first in the field to wing the good tidings afar and near. While at the Carleton last week they were registered as Mr. and Mrs. D. S. Conger of Chicago, and the Reporter took it for granted that the registration was in good faith and not entered there as a fooler. When Chicago, Janesville or Evansville young people come to Edgerton and register as man and wife they will confer a favor by hitting us on the head with a brick and then watch the ruins tumble.—Edgerton Reporter.

# TORTURES OF CHINESE.

**Terrible Methods of Punishment  
Inflicted by the Celestials.**

## HORRORS OF IMPRISONMENT.

**They Are So Revolting That Natives  
Gladly Prefer to Be Killed—Squeezing  
of the Limbs—Boiling Water  
Poured Through Brass Tubes That  
Coil Around the Victim's Body.**

According to recent reports from China the brave defenders of the legations in Peking when all hope was gone put the women and children to the sword to spare them the worse fate of falling into the hands of the Boxers to be tortured. Admiral Seymour, leader of the Peking relieving force, it is also said, in order to save the wounded of his force, whom he could not care for on the march, from the tortures of the yellow hounds, offered them the choice of being shot by their own comrades or left to the mercy of the Chinese. All of them accepted this merciful alternative rather than suffer the tortures which the Chinese have for centuries inflicted on their victims and which have horrified the civilized world. A description of the most excruciating methods of punishment is here given.

The punishment most frequently inflicted is that of the pants, or bastinado, says the New York World. This form of correction is used in every part of China for every kind of offense. The number of blows is in proportion to the magnitude of the guilt. The culprit is usually brought to some public place, generally outside the city walls. There, in the presence of a mandarin and a guard of soldiers, he is beaten by slaves trained for that purpose. If the crime is a serious one, the criminal is held down by one or more slaves. The chief actor, the Hecor, is furnished with a half bamboo six feet long and about two inches broad, and with this he castigates the offender on the back of the thighs.

When a female is whipped with the bamboo in civil offices and courts of justice she is simply made to kneel, and then the strokes are inflicted on her thighs or body—only her outer garments having been removed.

Of a more serious nature is the punishment or torture of the toha, or cangue. This torture is inflicted for offenses of a grave nature. The instrument itself is a heavy wooden frame, formed of two sections, fastened at one end by a hinge and at the other by a lock or screw. The neck of the culprit passes through a hole in the center of this frame and his hands through smaller apertures on each side. Sometimes the victim is allowed the freedom of one hand, which he uses in relieving the weight of the cangue from his galled shoulders. The average weight of the cangue is from 60 to 200 pounds, and the condemned is compelled to wear it from one to six months. The efficacy of this species of punishment lies to a great extent in the ridicule it entails and the utter helplessness of the offender, who is daily brought out of prison by the officials and placed in the public streets.

Squeezing the fingers is a torture used principally to extort confession. The victim is usually made to kneel down. He is then tied by his cue to an upright post. The fingers of each hand are then put between rods, a rod coming between two fingers, which are so arranged that by pulling a cord attached to these rods the fingers are remorselessly squeezed between them. Finally the victim is willing to confess anything which his accuser may desire, so dreadful is the pain suffered.

In another form of torture the victim is made to kneel on the ground, his ankles placed in a frame consisting of three sticks or poles fastened near each other at one end. Each ankle comes between two sticks. By pulling on cords fastened to the top end of the sticks the ankles are squeezed by the sticks as the latter are made to approach each other.

Except in the case of those who are rich or have rich friends willing to bribe the jailers to treat them well, imprisonment in China is awful and revolting. The horrors of a Chinese prison are so great that even the Chinese themselves prefer death to imprisonment. The prisoners are crammed like wild beasts into a cage generally swarming with vermin. Insufficient and vile food is supplied, and horrible tortures unknown to the laws are inflicted.

For more serious offenses the "superior" class of punishment is inflicted. This consists of beheading, strangulation or banishment. The victim condemned to be beheaded is carried to the execution ground in a kind of cage or box made of slats or bamboo. The crime for which he is to die is written on a slip of paper which is fastened to a small piece of bamboo and is then stuck in his hair. In his cage is generally carried the pall for holding his head. This, when the extreme penalty has been paid, is often suspended on the city wall or on a pole near the street to act as a warning to the public.

One method of beheading is simply striking off the head of the victim while he is kneeling with his hands tied behind his back. Another method is that known as "cutting into small pieces." This consists of cutting into the eyebrows or over the eyes, the cheeks, the fleshy part of the arms, breast, etc., in such a way that the skin will hang down. The executioner then stabs the miserable victim in the abdomen and finally cuts off his head. "Cutting into pieces" is regarded as the most ignominious form of all capital punishment. Thus, too, is the form of death meted out to parricides and wives convicted of infidelity.

Strangulation is considered the least disgraceful of all capital punishments, because the body is not mutilated. The victim kneels on a frame when his hands are tied behind him, or he is stretched out and fastened to a cross-piece. His head is then secured to a perpendicular post by his cue, his face turned outward or away from it. On the post, about as high from the ground as the victim's neck, is a hole through which two ends of a cord that has been passed around his neck are put. By pulling the two ends of the cord the victim would soon be dead. In China, however, it is usually the custom when the victim is nearly dead to relax the cord and allow the victim to breathe, only to go through the pain of strangulation once more.

All kinds of tortures are resorted to for confession. They include dismembering, flogging in all its varieties and kneeling on hot chains. These modes of torture, entirely unauthorized and unrecognized by the law, are frequently resorted to by the magistrates and jailers.

An instrument of torture known as the bloody eyebrow is named after a bird which, being tied to a frame by a short string, continually hops about or flies away to the length of the string and then returns. The instrument consists of an upright post and two cross-pieces firmly fastened to it. The culprit kneels on the lower of the cross-pieces with his back to the post. His arms are then outstretched and fastened to the other crosspiece, which is placed several feet above the lower one.

Across the calves of his leg is laid a stick several feet long. To the two ends of this stick are attached cords that pass through holes made in the ends of the crosspiece on which the victim kneels. By tightening these cords the pressure on the legs becomes unbearable. Kneeling of itself would soon cause intolerable pain. To this is added the pain caused by pressing down the piece laid on the upper sides of his legs while he is in a kneeling posture. It is said that the wrists and arms are pressed at the same time and in a similar manner between the upper crosspiece and another stick placed on the upper side of the arms.

A curious but uncomfortable form of torture is called monkey grasping a peach, owing to the fancied resemblance of the victim to a monkey grasping something in its paw. It is commonly used by mandarins to compel prisoners to confess their guilt. The victim is suspended by one arm over a horizontal stick several feet from the ground, while the other arm is passed down under one or both legs. The hands are then tied securely together by the thumbs or near the knees. Thus no part of the body is allowed to touch the floor, and the whole weight of the wretched victim's body comes under the armput on the one arm passed over the stick.

A common punishment is to make a victim stand on tiptoe in a cage made of slats or bamboo, through the top of which his head protrudes and from which position he is unable to move it. The only relief enjoyed by the victim is when he pulls up his legs, when, of course, the whole weight of his body is thrown on his neck.

One of the most gruesome forms of torture is the hot water snake. Around the body and arms of the unfortunate victim are coiled snakes made of brass tubing. These fit the victim tightly. When the appointed moment arrives, boiling water is poured down the mouths of the snakes. The torture endured by the victim is excruciating. The wire shirt punishment consists of a piece of iron netting, which is bound so tightly around the body as to cause the victim's flesh to protrude through the mesh. The sufferer is then shaved with a sharp knife, and it is on record that victims have subsequently had salt rubbed into their wounds. The above penalty is only imposed for crimes such as parricide and similar extreme villainies.

## A SYNDICATE NOVEL.

**The Chapters Will Be Written by  
Some Western Authors.**

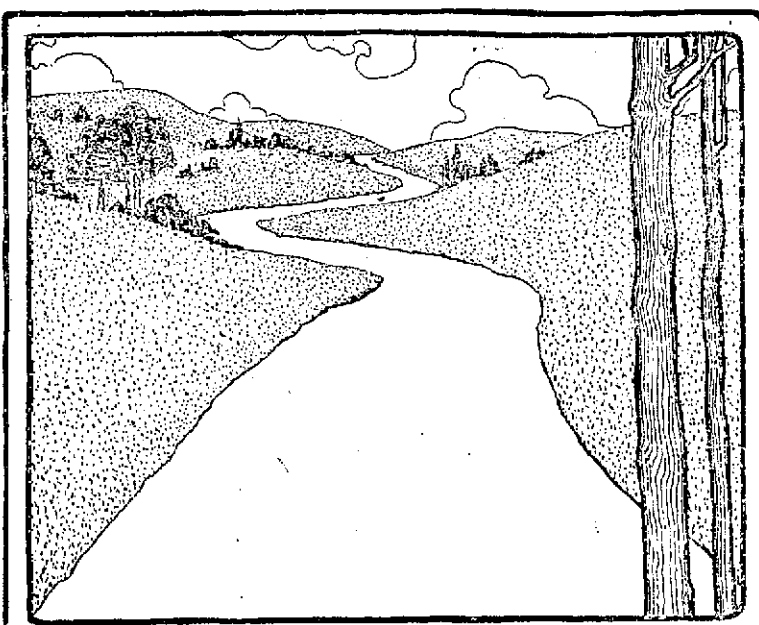

Will Cumbach, president of the Western Association of Writers, was in the city the other day on business connected with the association, says the Indianapolis Press. He says the programme of the next meeting at Winona, in June, 1901, will be of the highest order.

He has arranged for an original novel to be written by the members. The plot of the story already has been made by John Uri Lloyd of Cincinnati, who will also write the first chapter. Mr. Lloyd is the author of "Eudorpha" and "Stringtown on the Pike" and other stories. W. H. Venable, LL. D., the well known author and writer, will write the second chapter, and Coates Kinney, a poet of the west, will write the third chapter. This will be Ohio's contribution to the romance. Will Cumbach will write the fourth chapter, ex-Judge Willard Cox of Indianapolis, who wrote "The Legionnaires," will write the fifth chapter, and Mark L. De Motte, professor of law at the Normal college at Valparaiso, will add a chapter; this probably will conclude the story.

The effort will be made to make the story up to the best of modern romance. It will first be given to the public at Winona by each one reading the chapter he has written in regular consecutive order. It will take one evening to present this story. The chapters as they are written will be passed on to the next writer until the work is done. It will be completed by the 1st of January next.

Lake Mills Leader—The Janesville Gazette advances the idea that Hon. John M. Whitehead will be renominated for the office of state senator without opposition, and bases its opinion on Mr. Whitehead's record in that office. If there is any man who has proven his quality to be of the first class, Mr. Whitehead has furnished the proof, and if quality is what the people of the district are after they can certainly make no mistake in returning him. He is able and active; an earnest champion of the right; honest, upright, clean and capable of defending the rights of the people either on the floor or in the committee, and we are constrained to ask, why should not such a man represent this district?

Jailor Whitman, of Chicago, was in Janesville yesterday on a secret mission. The report was at once set afloat that Chief Kiple had sent him here to get information as to how Chicago could pattern after our three cornered hunt—all day and all night for a policeman—and then do your own policing police force. The rumor was at once denied, however, and it was said that Whitman was in search of evidence to be used in the Mosher case. Be that as it may, Chief Kiple's men could probably learn a trick or two if they tarried here long enough.

The Chicago morning papers devote considerable space to a suit over a soda fountain. Soda the evening papers, but the man who owns the machine says the case will end in a fizzle. The judge charged the jury today, however, and the result will doubtless be effervescent in the esteemed contemporaries of tomorrow morning.

"Imperialism," which is but another word, as the expression is used nowadays for "law and order," should be the rule in China. The "consent of the governed" business is all right so far as it goes, but in the case of the Boxers, for instance no consent is necessary.

Chicago has only one Weed street, but its mud streets are countless—Chicago News.

Green Bay has no Weed street, but it is right with Chicago in the matter of mud streets, even if it isn't quite as large a city—Green Bay Gazette.

Well, brethren, why don't you both follow the example of the good town of Janesville, Wis., and put down brick pavement and macadam?

The St. Paul Globe, The Detroit Free Press, New Haven Register and Chattanooga Times form a quartette of well known democratic papers that refuse to support Bryan. And there are others—many of them.

Orfordville used to be Orfordville, but became Orford. Now Orford has again become Orfordville and Orford is a thing of the past. This, as nearly as we can get at it, is the way the thing stands at present.

Rhineinder New North—The people of Wisconsin should be glad that the Janesville district will return John M. Whitehead to the state senate. Such men as he are needed in public positions.

Henpecked husbands in all parts of the United States, and without refer-

ence to party, will doubtless sympathize with the two Green Bay girls whose father administered punishment by locking them up in a chicken coop.

According to the press dispatches the cablegram from Minister Conger came "through Shang, taolai of Shanghai." This being the case, it is probably a good thing that the message was in cypher.

The Bryanites continue to "view with alarm" the prosperity of the country, and the excellence of the government, "pointing with pride" only to, well, any old thing so long as it isn't republican.

A man named Waterbury is a candidate for office in Montana, and as he is on the republican ticket, the democrats naturally expect to experience great difficulty in winding him up.

Governor Beckham of Kentucky, was renominated, and the "six prominent democrats" who proposed to combine against him, are not nearly as prominent as they were.

Beckham's nomination, according to the public prints, was made after "an all night session." Evidently the Kentuckians are still addicted to the same old habit.

The horses of the United States will probably be much interested to learn that a Connecticut automobile was burned up as it ran away.

La Crosse has a newspaper war. Quit it, brethren. There's "nothing in it."

## STAY BY HIS DYING COMRADE

Side Light on Lives of American Soldiers in the Philippines.

Many thefts have been reported in the vicinity of Pullian of late, and many efforts have been made to run down the villains, but as yet no captures have been made, says the Manila Freedom. Sergeant Le Doux secured the consent of his captain to go out with a detail of four men, dressed as natives, carrying only revolvers, in search of these lawbreakers. A carabao had been reported stolen near the post in the evening, and at about 9:30 the sergeant and his men started on their mission. He and Private Robert G. McKinnish started in the direction of Baling, on the road running along the river, the other three men going on a parallel road about 200 or 300 yards distant. When they were about one mile from the post, in a thick, dense woods, a man jumped into the road and called out in English: "Halt! Who is there?" The sergeant had hardly answered the challenge when from the thicket a volley was fired by the enemy, who were not more than 40 feet away, mortally wounding Private McKinnish and slightly wounding Sergeant Le Doux, who was shot in the wrist of the left arm, the ball coming out at the elbow, making a bad flesh wound.

In an instant he drew his revolver and with a whoop and yell made a charge on the enemy, discharging his revolver with every whoop until he had the enemy on the run. When he had emptied his revolver, he returned to his comrade, who was lying on the ground. He raised his hand to his eyes and administered to the dying man's wants as far as possible. He took the private's revolver and kept up the shooting, hoping he would be reinforced by the rest of the detail. No one came, and he went to a shack close by to give the alarm. He found one man and two women. His wound was bleeding profusely, and he was getting weak from loss of blood. He made the man understand that he wanted him to go to Pullian and give the alarm. He started out, but did not go near the post. The women seemed wonderfully affected. They lifted the wounded man's arm to their lips and kissed it repeatedly. When he had tied his wound up as best he could, he started back to carry his comrade to the house.

At about this time Lieutenant McCarthy and a detail of men came up. They saw some men crawling in the distance and without saying a word opened fire. The sergeant thought he had been attacked again, and he returned the fire, and the shot from his revolver went too close to the lieutenant's head to be comfortable. Before any further shots were fired the mistake was discovered.

Sergeant Le Doux acted the part of a hero and a gallant soldier in not deserting his dying comrade.

## A Hint to Letter Writers.

The practice of writing private letters from the first to the third page of a letter sheet and then going back to the second page is a matter of taste, but it will not do to follow that course of procedure in writing legal documents.

The New York courts have disallowed the provisions of a will written in this way. The testator wrote the will on three sides of a folded paper, commencing on the first page and continuing on the third page, at the top of which was written "second page," and completing and signing the instrument on a page marked "third page," which, in fact, was the second page of the sheet.

The court held that the will was not signed at the physical end, as required by the statute. The law does not contemplate going backward in order to get forward, and the will was refused probate. The New York court of appeals sustained the decision throwing out this form of will.—Boston Herald.

## "DOUBTFUL" SENATORSHIPS

States Whose Vote Will Decide the Political Control of the Senate.

There will always be a financial issue before the country so long as there is a powerful party seeking to degrade the currency. Bryan stands for the Chicago platform today as much as he did four years ago. It is for that reason solely that the Populists and the silver fanatics who have swarmed into the Democratic camp to the exclusion of the conservatives support him and make his nomination a foregone conclusion. The money question will be with us, in fact, so long as Bryanism is a power in politics.—San Francisco Call.

Very true, and so will other questions of vital consequence be with us so long as there is a Bryan or a Democratic party in the field of politics. The terms of 30 United States senators, of whom 18 are Republicans and 12 are Democrats and Populists, expire next March, and the politics of their successors will be determined by the elections of this year.

Oregon has already decided that Senator McBride, a Republican, shall be succeeded by himself. Leaving out the southern states, where Democrats will succeed Democrats, there are 11 Republican senators whose successors are to be chosen by legislatures to be elected this fall. These are in Colorado, Delaware, Idaho, Illinois, Iowa, Kansas, Montana, Nebraska, South Dakota, West Virginia and Wyoming. How many of these states could be reasonably expected to choose Republican legislatures on the single issue of sound money versus 16 to 1? Certainly not more than four, probably not more than one. What other issue or issues, then, must be chiefly depended upon to retain Republican control of the senate in the Fifty-seventh congress? With what weapons can the cohorts of Bryanism be most effectively met and overcome in the "doubtful" states? The obvious answer is, "Protection and prosperity."

## HOW THE FARMER GAINED.

Protection Increased the Value of Agricultural Products.

The American farmer is prospering when well paid wage earners are carrying well filled dinner pails, as the following comparison of the farm values of principal crops shows:

	1895.	1900.
Corn.....	\$24,985,584	\$623,210,110
Wheat.....	237,988,068	219,545,269
Oats.....	163,655,068	158,167,375
Rye.....	11,804,526	12,214,118
Barley.....	28,312,118	29,594,284
Potatoes.....	72,341,001	59,428,832
Cotton.....	230,342,036	332,969,600
Hay.....	39,135,016	411,023,187
Tobacco.....	31,574,220	45,000,000
Flax.....	12,000,000	24,000,000
Grand total.....	\$1,767,959,671	\$2,900,950,735

Plenty of work and good wages follow the opening of the mills, increasing the home market for farm produce so as to make these ten staple crops worth upward of \$323,000,000 more to the American farmer than under the Democratic free trade administration, which shut our mills, killed our home industries and gave our trade to foreigners.

Add to this increase of \$323,000,000 the advance of \$633,000,000 in the value of live stock within the last few years, and it will be seen that the farmers of the country have gained almost a round billion dollars through the better times under this Republican administration, without estimating the increased values of their fruit, butter, cheese, eggs, vegetables and other small crops, to say nothing of the increased price paid for wool.

## Points For Farmers.

Democrats are trying to make the farmers discontented because they are paying a little more money this year for their wire nails and wire for fencing. Of course they never point out to the farmers that his extra profit this year on two or three bushels of corn will pay for any increase in the price of a keg of nails and that his profits on all his farm products in this year alone will pay for many times the cost of his barbed wire, besides leaving him a handsome surplus to put in bank or pay off his mortgage.

## People Can't Be Fooled.

The fact that the liabilities of banks that failed in the last two years averaged nearly \$30,000,000 less than the annual liabilities of the banks that failed during President Cleveland's term will probably be used by the Democrats as an argument to put them in power again, so that they can smash the capitalist once more. But the people won't be fooled this way. They prefer no panics and no runs on the banks, as they would rather have their money safe in sound institutions.

## Things to Remember.

While all the appropriations made during the last session of congress were \$24,000,000 larger than in 1900, it should be remembered that \$9,000,000 will be expended in taking the census and upward of \$17,000,000 will be used for improving the postal service, while another \$7,000,000 will be spent in increasing our navy. In other directions there has been an actual decrease in the appropriations.

## Prosperity For Farmers.

The value of every cow on the farm on the first day of this year was \$31.60. But on the 1st day of January, 1894, under Democratic administration, each cow was worth only \$21.77. Farmers appreciate the increase of \$10 in the value of each of their cows and will vote to maintain the Republican administration in power.

## A Query.

## PIPES TWISTED AND TORN OFF

### PIECE OF VANDALISM IN NEW ARCHIE REID RESIDENCE.

It is a Costly Destruction for the Plumbers, McVicar Bros. and They are Anxious to Discover the Culprits Looks Like a Case of Spite Work on Someone's Part.

McVicar Bros., the Main street plumbers are up in arms at a piece of vandalism that occurred in the new residence being built by Archie Reid in the Third ward. The plumbers had nearly completed the plumbing work and went up this morning to complete the connections and get the work in shape to put on the finishing touches, as soon as the plaster was dry. On going to the basement they were surprised to find the large lead pipes leading from the bath tub, sink and lavatory, were missing.

An examination of the remaining pieces showed that the pipes had been twisted off and torn from their fastenings, and joints and connections ruined, necessitating putting in entirely new work. It was not so much the missing pipe that caused trouble, but the fact that in one or two places the floor would have to be taken up to connect the new pipes. The damage to the work will cost the plumbing firm from twenty-five to fifty dollars to put it in the condition it was before being broken.

It was thought at first that the missing pipe weighing some twenty-five pounds had been carried away but later it was discovered thrown under the basement steps, flattened and broken beyond repair. Whether the parties engaged in the work intended to carry off the pipe and sell it for old lead and were frightened away before completing their work or whether it was a piece of spite work is merely a conjecture. In any event it was a costly job for the plumbers and a piece of vandalism that should be severely punished if the guilty parties can be discovered.

McVicar Brothers are much wrought up over the affair and would be willing to pay something for the arrest and punishment of the guilty parties. They are thankful however that the work proceeded no farther than the basement as the plumbing work is very elaborate. If they had started in to break off the pipes up stairs it would have been a costly job and caused no end of trouble.

## ATTEMPT TO ROB A CARPENTER SHOP

George Barriage's Place on North Bluff Street Was Entered by Thieves Last Night.

An attempt was made last night by some person or persons to enter the carpenter shop of George Barriage on North Bluff street. When Mr. Barriage arrived at his shop this morning he discovered that the lower right hand panel of the rear door had been split open directly under the lock and broken in. A sharp instrument like a hatchet had been used to do the work as the marks on the panel, where the board had been split are clearly defined and not splintered on the edges as they would have been in case a dull instrument had been used to break the board.

Mr. Barriage thinks the parties engaged in the attempt to enter the shop were frightened away before they succeeded in getting the door open, for after a careful examination he was not able to find any tools missing.

What the object of the parties engaged in the work was, can only be guessed at, but most likely they were after tools to be used in some larger job. No reports of any attempts to enter houses have been received by the police but a close watch is being kept for such a job.

## EDWARD COUGHLIN

### TAKEN TO BELOIT

Chief Hogan, Then Sheriff, Remembers

All About the Case—Examination Takes Place Today.

Ed Coughlin, arrested yesterday by Deputy Brown for horse stealing, was taken to Beloit last night at 6:05 and will have his examination in Beloit today.

The horse stolen by Coughlin was recovered. Shortly after it was taken he drove it about thirty-five miles from Beloit and disposed of it to a farmer from whom it was recovered by the officers. The theft occurred in 1891 during the time that J. W. Hogan was sheriff.

During Hogan's term Coughlin was located in Iowa and a requisition for him was obtained. Chief Hogan went after his man but some interested parties notified Coughlin and when Hogan arrived in the town where he had been located he had skipped some two days before the officer arrived. That was the last seen of him around this section until he gave himself up to Deputy Brown yesterday.

Chief Hogan said he remembered the man very well and knew all about the circumstances of the case when his attention was called to it.

Miss Anthony is Golf Champion

Chicago, July 21.—Miss Bessie Anthony is now the champion woman golfer of the West. She won the title yesterday, together with the Governor's cup, on the links of the Onawentia club by defeating Mrs. J. M. Cutter of Ex-moor 5 up and 4 to play. From the very beginning the game played by both women was superb, Miss Anthony winning through her superior putting. The game between the greens was even at all times, the drives and brassie shots giving little if any advantage to either. But on the green Miss Anthony did phenomenal work and with long careful putts won hole after hole when they seemed almost lost.

## MELONS ARE SCARCE AND PRICES HIGH

### THE BERRY SEASON IS NOW BEING WOUND UP.

Peaches Have Begun to Rule the Market—Pineapples are Low Priced—Cabbage and All Vegetables Plenty and at Reasonable Figures—Concord Grapes Coming.

Rocky Ford cantaloupes, about the size of Ben Davis apples, are retailing at 75 cents a basket, containing a dozen or fourteen melons. The price is a little stiff to insure a big demand for the fruit and it is not probable that it will be much lower in the very near future. Watermelons sell at 20 and 25 cents each and are not especially good either. They are a shipped stock and must necessarily be picked green and allowed to ripen in transit, which detracts from their flavor.

The berry season is on the finish. A few red raspberries are quoted at 12 cents a box and black ones at 11. Blackberries seemingly are not plentiful, and certainly of inferior stock. They are selling at 10 cents a box. The current crop is nearly exhausted. A few red ones were offered today at 10 cents a box or three for a quarter. The black variety is ten cents straight. California peaches are being received in large quantities and are pretty fair stock. The best qualities sell at 25 to 35 cents a dozen. Plums of all kinds, sizes and qualities, the products of the golden state, are offered in abundance. The prices range from 8 to 15 cents a dozen. Pineapples go at most any old price. The quotation depends entirely upon the quantity of fruit the dealer has on hand and the condition of its ripeness. The predominating prices are 15 and 20 cents each.

Cabbage was never finer than this season. The flat Dutch variety retails at 5 and 10 cents a head. Beets are now quoted at 25 cents a peck, turnips 15 cents, apples 15 to 30, cauliflower 10 and 15 potatoes, 50 cents a bushel, onions three bunches for a dime or 30 cents a peck, beans 5 cents a pound, tomatoes 5 cents a pound, cucumbers 4 for a dime, summer squash 5 cents each, sugar corn 10 cents a dozen. Lemons are a little higher this week for the best Messina stock, retailing at 35 cents a dozen.

Concord grapes struck town last week in a light shipment. They found ready takers at 25 and 30 cents a basket. Home grown tomatoes have not yet been offered in any great quantities, and the prospect for a large local yield is not so favorable as was first supposed. Home grown cucumbers will be on sale in two weeks, and the pickle makers will then begin to get in their work.

The layout of fish today was complete. Black bass was quoted at 15 cents a pound, wall eyed pike 12½, trout 10, white fish 12½, catfish 10. Spring lamb sells at \$1.50 for the hind quarter and \$1 for the fore quarter. Spring chickens are steady at 20 cents a pound, the average weight of each fowl being about 2½ pounds.

## CIGAR LEAF TOBACCO

It Takes Leaves of Different Qualities and Properties to Make the Best Smoke.

A bulletin issued by the department of agriculture contains the following information concerning cigar leaf tobacco: Theoretically each tobacco plant in the tobacco district produces the filler, binder and wrapper necessary for the manufacture of a cigar. The best leaves are to be used for wrappers, the second quality are fillers, Practically, however, it takes leaves of very different qualities and properties to make the best filler and the best wrapper. A soil which will produce the best grade of wrapper is not likely to produce a filler of corresponding value.

A soil which will produce a filler of fine quality will produce a wrapper leaf which is too heavy, strong and dark for our present market demands. On account of the difference in the soils different grades of tobacco are produced in the northern tobacco districts. The main sorts of the Connecticut Valley crop are a binder and wrapper leaf. This does not mean that good fillers are not raised on some of the soils of the Connecticut Valley, but the average soils at present used for tobacco produce a good wrapper leaf and a poor filler, as a rule.

On the other hand, the soils of the tobacco district of Ohio are very strong, heavy soils, containing a very high water content. These produce a strong, heavy, dark type of tobacco, which can be used at present only for filler purposes. The characteristic crop of Ohio used to be a wrapper, but in the change of style from dark to light cigars the produce of that district is adapted at present to the filler only. In Pennsylvania the same thing holds true, except that along the river courses the soils are lighter and a very fine quality of wrapper can be produced.

The main dependence of the grower is a filler crop, and on the heaviest limestone soils filler leaf only is produced. The Wisconsin soils appear to come midway in texture between the Connecticut Valley and the Pennsylvania soils, and both filler and wrapper are produced.

Nelson Case Adjudged.

The case of the State of Wisconsin against Nels Nelson, came up in the municipal court this morning and was adjudged until Tuesday morning, July 24, at 10 o'clock. A jury will be drawn and the case tried at that time.

## LIBBY A WHEELMAN'S FRIEND

Evansville Newspaper Man Says Cyclists Should Not Be Impaired On

Editor Libby, of the Evansville Enterprise, is the wheelman's friend. In his last issue he says:

Wheel riding is very much diminished we believe from the fact that the authorities have become so strict against them that people have to be to much trouble and expense to avoid being fined. It is all very well to have reasonable restrictions, but we see no reason for placing greater restrictions upon one vehicle than another nor no more reason for barring wheels off the walks in small places in muddy weather than in a reasonable rate of speed than baby cars, wheelbarrows, etc. The facts are people in small places where there are no paved streets are drawing the lines too close and strict against wheels, thereby unnecessarily barring many from enjoyment of this innocent healthful pleasure compelling them when muddy or in bad roads to ride over them or not at all while they do not think of restrictions as lights bells etc. on any other conveyance even if they have rubber tires making them just as noiseless and dangerous. Let us look at ourselves and see if we have not been a little too strict and unjust in this matter, we would just as soon a wheel would pass over our walk as a wheelbarrow or baby cart and a person on a wheel riding at a reasonable rate does not endanger any one whom they meet any more nor run them off the walk more often than three or four walking abreast on the sidewalk as we are often crowded off by boisterous school boys or girls. Let us be reasonable in this matter.

TO ADJUST LABOR TROUBLE.

Chadwick-Trusher Plan Will Be Tried in Large Cities.

FEDERATION TO BE SPONSOR.

Committee Appointed at the Denver Convention to Make an Experiment with the Building Trades' Disputes in Chicago—Idaho "Bull-Pen" Matter.

Denver, July 21.—The American Federation of Labor has referred to a special committee for investigation and recommendation the Chadwick-Trusher plan for the adjustment of labor disputes. The scheme is to be first tried in Chicago in the building trades' disputes. Edwin B. Chadwick and W. R. Trusher were before the executive council and discussed their plan at length. Vice-President Kidd and Treasurer Lennon were appointed a committee to meet with Messrs. Chadwick and Trusher in Chicago, investigate the matter and report at once to the council.

Want to End Chicago Trouble. From Mr. Chadwick's remarks it would seem that the association is backed by great business concerns that are anxious to see the trouble in Chicago at an end. He said business was paralyzed in that city, that the time limit of \$15,000,000 of building contracts had expired, and that the condition of affairs was altogether deplorable. "The building season is two-thirds over," said Mr. Chadwick, "and as men can do but little work during the winter, building and other industries will at the beginning of the following season be set back about sixteen months. A truce was arranged so that work on schoolhouses could be completed, and this is the only work that has been done for eight months. One hundred and sixty thousand men out of work, trade paralyzed and winter soon at hand, is not a most joyous condition of affairs." Mr. Chadwick was asked if it was not an insurance plan. He admitted that it possessed such a feature, but that this is only one of the many elements in its character.

For Idaho "Bull-Pen" Exposé. Organized labor, as represented by the American Federation of Labor, will place the responsibility for the Coeur d'Alene outrages where it belongs. The federation, through a special committee appointed by the executive council, will officially advise the members of the federation through a report which will be published in a short time, and in which plain language will be used in dealing with organized labor. While no member of the committee would outline the probable character of the report, it is understood that there will be no mincing of words when dealing with the alleged indignities and insults to which the miners of the Coeur d'Alene district were subjected under martial law and the rulings of Governor Steunenberg. The sentiment of the members of the executive council is that the labor forces of the country should be fully advised concerning all the details of the horrors of the Idaho "bull pen" and the manner in which miners of Shoshone county were treated by the state officers. The report will be an arraignment of those officials, in which all the facts will be presented and reasons given why the methods indulged in should be promptly and effectually repudiated. President Gompers and Messrs. Kidd and Duncan were appointed to make the investigation and report.

Council Adjourns. The executive council concluded its labors. President Gompers and Vice-President O'Connell went to St. Paul to attempt to settle the street car strike. Vice-Presidents Duncan and Kidd and Treasurer Lennon went to Chicago to attend to questions referred to them as members of different committees. Secretary Morrison went to Chicago and will return to Washington. Vice-President Mitchell went to Indianapolis. The council devoted the greater portion of the day to the consideration of questions affecting the internal work of the organization. It was decided not to recognize the Association of American Agents as a labor organization. Its members are sales agents of small manufactured articles, insurance canvassers and book agents. The council had a discussion with Dr. D. A. Hayes of Evanston, Ill., Dr. Henry Briggs of Denver university and Joseph Read of Denver of the Methodist Pastors' association concerning the relations of the church toward organized labor.

Say Churches Favor the Rich. Vice-President Kidd was the most outspoken of the members of the council in his views on the relative positions. He held that the churches, as a rule, were more inclined to side with the capitalists than the labor classes, and gave this reason why the laboring men were not more strongly represented on the rosters of the churches. The discussion did not end in any practical result.

CONFIRMED BY POPE LEO.

New Appointment for Archbishop Keane, Despite Opposition.

New York, July 21.—A dispatch to the Journal and Advertiser from Rome that the appointment to the archbishopric of Dubuque of Archbishop Keane, former rector of the Catholic University at Washington, is confirmed by the pope.

Archbishop Keane of Milwaukee, sent a strong letter in opposition to the appointment. It was the most violent epistle ever received at the Vatican.

Archbishop Keane is now at Brussels under treatment for his eyes. He will come immediately to Rome and as quickly return to the United States, where he will take possession of the see. This appointment is the quickest on record, coming only six weeks after his name was presented.

Hard Fight with an Eagle. Joliet, Ill., July 21.—Supervisor Michael Walter of Lockport had a fight for his life with a young eagle. As a result his right arm from the shoulder to the hand is badly torn. The eagle is one of a pair Mr. Walter received five or six weeks ago from the Rocky mountains. The birds measure about four feet from tip to tip. Mr. Walter entered the house where the eagles are kept. As he did so one of them swooped down and fastened its talons deep in his shoulder. The bird then seized Mr. Walter's hand as he raised it to beat off the savage attack. The fight lasted some time before Mr. Walter was able to make his escape.

Alps Climbers Killed. Berlin, July 21.—The annual chapter of Alpine accidents has begun unusually early this year. Within a week seven citizens of Berlin, including two ladies, have met death in the Alps. The latest case was reported yesterday. William Weigand, a well known Alpinist and a teacher of gymnastics in a number of Berlin institutions, fell with Moser, the most famous guide in the Tyrol, while climbing Koenig's Peak. Both were killed.

Oil Belt Found in Hungary. Vienna, July 21.—A most important discovery of petroleum has been made at Zemplin, Hungary, about twenty miles from the border of Galicia. This is the first time that mineral oil has been found on the Hungarian side of the Carpathians. The oil is of the finest quality, ranging from 74 to 80 degrees and requiring practically no purification, being greatly superior to the Galician product, which runs about 38 degrees.

Cuban Election Sept. 15. Washington, D. C., July 21.—It is understood that the president and Gen. Wood have agreed on Sept. 15 as the time for holding the election in Cuba for delegates to the constitutional convention that is to be called for the purpose of formulating a constitution for an independent government for Cuba. On the return of Gen. Wood to Cuba he will confer with the leaders of the Cuban people as to the details of the election.

Castle Craig Hotel Burns. San Francisco, Cal., July 21.—Word has been received here that the hotel at Castle Craig, Shasta county, burned to the ground. All the guests escaped with their baggage. Castle Craig tavern was a fashionable summer hotel high up in the mountains of Shasta county, and was owned by the Pacific Improvement company. It was crowded with society people from San Francisco and other portions of the state.

Backaches of Women

are wearying beyond description and they indicate real trouble somewhere.

Efforts to bear the dull pain are heroic, but they do not overcome it and the backaches continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound

does this more certainly than any other medicine. It has been doing it for thirty years. It is a woman's medicine for woman's ills. It has done much for the health of American women. Read the grateful letters from women constantly appearing in this paper.

METHUEN IS IN HECKPOORT.

Lord Roberts Reports the Movements of Four Generals.

London, July 21.—The following dispatch from Lord Roberts has been received at the war office.

"Pretoria, July 19.—Methuen occupied Heckpoort today without opposition to speak of. Ian Hamilton and Mahon continued their march along the country north of the Delagoa bay railroad. Hunter is reconnoitering the positions occupied by the Free Staters between Bethlehem and Ficksburg."

Cape Colony 1.—Methuen Opens.

Cape Town, July 21.—The Cape Colony parliament opened with an impressive scene. The speech of Sir Alfred Milner, governor of the colony, prophesied an early close of the war and subsequently a united and prosperous South Africa. Messrs. Sauer, Merriman and De Water, former members of the ministry, were not present.

"Con" Work at Peoria.

Peoria, Ill., July 21.—Charged with working a confidence game which relieved numerous people of this city of various sums of money, J. T. Gordon is held in the city prison. Gordon was the collector, he claimed, for the Mercantile Directory company of Chicago. Officers here claim the scheme was in the nature of an endless chain, in which signatures were secured to vouchers.

Chautauquans Meet at Alton.

Alton, Ill., July 21.—The eleventh annual assembly of the Piassa Chautauqua Assembly Association began at the Piassa camp grounds above Alton yesterday. The first day was devoted to a reunion of people from Jersey county. The speakers were Judge A. A. Goodrich of Chicago, and S. V. White of New York city.

Three Killed in Collision.

St. Louis, July 21.—A special to the Post-Dispatch from Fort Worth, Tex., says that Hugh Nichols and George Myers, firemen, and Engineer Brooks, were killed in a head-end collision on the Chicago, Rock Island & Pacific railroad at Rush Springs, I. T.

Mining Company Buys Land.

Sault Ste. Marie, Mich., July 21.—The Calumet and Hecla mining company has bought all the pine lands owned by the Shell Drake Lumber Company in Chippewa and Luce counties for \$650,000 cash. The deal includes the mill plant and docks at Shell Drake.

Tendered Mr. Heath's Place.

Clinton, Iowa, July 21.—Ex-Congressman George M. Curtis of this city has been tendered the position of first assistant postmaster-general, made vacant by the resignation of Perry S. Heath. As yet Mr. Curtis has not made his decision, but it is thought here that he will not accept the position.

Becomes a Raving Maniac.

Joliet, Ill., July 21.—Thomas Kelly, whose home is in New York, but who has been living here for some time, was taken from a Lake Shore train at Butler, Ind., a raving maniac. Word to this effect was received here Friday. Kelly was on his way to visit his family in New York. The cause of his insanity is not known.

Little Smallpox at Nome.

Port Townsend, Wash., July 21.—The transport Rosecrans arrived from Nome. Its officers reported to the quarantine officials here that the smallpox scare had been considerably exaggerated at Nome and that the total number of cases would not exceed eighteen.

Diaz Ill of Neuralgia.

Mexico City, July 21.—President Diaz is slightly ill with neuralgia and confined to his rooms at Chapultepec, where the cabinet members consult him. The family physician reported the president better Friday and says he will be able to come to town in a day or two.

Snowstorm in Midsummer.

Marshall, Mich., July 21.—Snow in July was the rare sight the people of this city saw. For five minutes around 3 o'clock, perfectly formed snowflakes fell. The day had been very hot, changing suddenly after dinner to cooler, with high winds and much rain and, for a short time, snow. The wind did much damage to the surrounding country, blowing down orchards and barns.

Win for Prince of Wales.

London, July 21.—At the Sandown park second summer meeting the thirteenth renewal of the Eclipse stakes of 10,000 sovereigns for 3 and 4 year olds, about one mile and a quarter, was won by the Prince of Wales' Diamond Jubilee; Chevening, with J. Reiff in the saddle, was second, and Skopos, guided by L. Reiff, was third. Nine horses ran.

Rotterdam Strike Ended.

Rotterdam, July 21.—The strike of laborers, which has been in progress here for some time, is practically ended and work has been generally resumed.

Die from Eating Pork.

Belmont, Ia., July 21.—Two children of H. Sternblock of Klenune, Ia., aged two and four years, died yesterday from trichinosis, caused by eating affected pork.

Becoming a Mother

Is an ordeal which all women approach with indescribable fear, for nothing can compare with the horrors of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipation of the coming event, and casts over her a shadow of gloom that cannot be shaken off. Thousands of women have found that the use of MORRIS'S FRIEND during pregnancy, through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at \$1.00 per bottle. Send for free booklet to THE BRADFELD REGULATOR CO., Atlanta, Georgia.

**Manufacture of Serum.**  
 The manufacture of serum in Russia during 1899 amounted to 30,000 ampules malleine and tuberculin, 8,220 cubic centimeters antipest serum and 400,000 cubic centimeters lymph. These figures include the 7,900 centimeters antipest serum and the 190,000 cubic centimeters lymph which were made at the pest laboratory in the isolated fort at Kronstadt, which was opened July, 1899.

**Testimony His Powers.**  
 Georgetown, Ky., July 21.—Caleb Powers was directly accused of conspiring to kill William Goebel. The accusation came from Robert Noaks, a conductor employed by the Louisville and Nashville railroad company, and captain of a military company recently organized of mountain men and composed, as Noaks said, of the most desperate men he could get together. Noaks' testimony was direct and emphatic. From Noaks came such statements as these, accredited to Powers: "After Goebel is dead this thing will be settled; Goebel has not much longer to live."  
 "Powers told me to get desperate men. He also asked me if I knew where he could get some smokeless powder cartridges."

**Dead Body Is Found.**  
 Birmingham, Ala., July 21.—The body of a white girl was found in the Bigbee river, near St. Stephens, Ala., with the head severed from the body. The body was bruised. People are greatly worried up.

## ON THE ROAD

All the time, eating irregularly, sleeping irregularly, exposed to every disease latent in bad cooking or poor food; that's a summary of the traveling man's life. The result is "stomach trouble"; that general term which covers various forms and stages of disease of the organs of digestion and nutrition. The traveling man can't avoid the troubles which spring from his business obligations. But he can avoid "stomach trouble." If Dr. Pierce's Golden Medical Discovery is used when the early symptoms of derangement of the stomach manifest themselves, the cure will be quick and radical. But even if the disease has become chronic the "Discovery" will cure ninety-eight times out of every hundred if tried fairly and faithfully.

Mr. Ned Nelson, the celebrated Irish comedian and mimic, of 577 Royden St., Camden, N. J., writes: "We fulfilled an engagement of twelve weeks and had a constant traveling gave me a bad touch of that dreaded disease called dyspepsia. I had tried everything possible to cure it till last week, while playing at B. F. Keith's Elgin Theatre, Philadelphia, in the Nelson trio, a professional friend of mine advised me to try Dr. Pierce's Golden Medical Discovery. I tried it, and thank God, with good results. Free! Dr. Pierce's Common Sense Medical Adviser, 1008 pages, 700 illustrations, is sent free on receipt of stamps to cover expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the same book cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y."

## FASHION NOVELTIES.

## Lace Capes Are Very Popular For Hot Weather Wear.

I do not know when I have had my spirit moved as it was the other day while standing in front of a window where all the most beautiful of the dresses of the season were displayed. In front of this window stood a pale little woman with one baby in her arms and another clinging to her skirt. The woman stood before the array of lovely things in her cheap and ill fitting clothes, and if ever there was a hopeless longing for the pretty things she might never possess it showed in her face. No philosophy is strong enough to prevent that desire for nice things.

If I could order things, I would have some one stationed at all the windows of stores, and when any one came along like this I would see that she had satin gowns for breakfast and velvet ones for tea if that happened to be the desire of the woman's heart. It is just as hard to be deprived of a velvet gown as one of simple calico.

LACE CAPE AND THE NEW SLEEVE.

Well, since I cannot order the universe as I would I will talk a little about the pretty things the other half can have. There was a white Swiss muslin dress for a young lady. It was made up over a white lining, and all around the bottom there were set varde points of butter colored Irish point. The front part of the skirt was painted in a large and straggling design of pink maidens, and the waist and sleeves had a smaller design of the same. There was an organdie of the same design, and the flowers were painted over the stripes and dots of the regular pattern.

While speaking of the hand painted skirts I may mention a white net. This had a painted design of flowers-de-luce without foliage painted over the skirt and also the waist and sleeves. The net was white, and the lining was of white taffeta, and there was a trimming of lierre lace and pale lilac ribbons run through the holes. The belt was a draped affair of lilac silk. This was a very dainty dress and intended for wear at the grandest afternoon functions of the season. One can imagine the fine straw hat to go with this all covered with tulle and great crape flowers-de-luce.

I must mention one more lace dress, and this is of dotted net, the dots about as large as a nickel. It was made up over a lining of canary taffeta, and the skirt was cut off at the bottom to give place to a flounce of lierre, which is very popular this season. The waist is quite plain as far as trimming goes, but the sailor collar has reached the neck. This is one of the new fads, and where it is not made on the dress waist it is fastened on with pins and made of lace or of some light silk and bordered with lace.

Many of the shirt waists so called have the sailor collar of the same material as the rest, and it cannot be denied that they are pretty, though never before considered dressy enough for any fine afternoon costume. A white mull waist was made quite plain in every other way, and there was a sailor collar of the mull, but it was so large and so covered with fine lace ruffles that one saw but the collar, and this was postiche. That means that it is movable and can be worn with anything.

There was a fancy bathing suit made for a young millionaire, and perhaps some one would like to know what it looked like. It was of marine blue foulard with white silk in a band around the bottom and the collar. The knickers and the waist were in one, and the skirt was separate, but fastened very strongly. The knickers were short and gathered with elastic to the knees, and the skirt came scarcely to the knees. This had a band of white three inches wide and was further stitched with blue. The waist was blouse shape, and the sleeves were mere ruffles not more than three inches deep. At the joining of the sailor collar there was a pretty fine tie. White stockings and sandals complete this suit.

One of the most elegant of the new things is the lace cape. These capes are made of Spanish or chausse lace and are so woven that by simply adding a collar they are finished and worn over light dresses. The effect is fine. They are not lined. Many small capes are also seen often made of net covered with narrower lace or ruffles, and they are finished at the neck with full ruffles and bows and ends of moire ribbon. Pretty capes are made of ostrich feathers, the plumes lying from the neck downward to the shoulders and those for the high collar standing up and the joining hidden under bows of moire or double faced satin ribbon.

Sleeves are growing more and more like those of olden time, and the cloaks have regular bell sleeves, wide at the bottom.

HENRIETTE ROUSSEAU.

## TESTS PATIENCE.

The Most Patient Janesville Citizen Must Show Annoyance at Times.

Nothing spoils a good disposition, Nothing taxes a man's patience, Like any itchesness of the skin. Itching Piles almost drive you crazy. All day it makes you miserable. All night it keeps you awake. Itch! Itch! Itch! With no relief. Just the same with Eczema. Can hardly keep from scratching it. You would do so but you know it makes it worse.

Such miseries are daily decreasing. People are learning they can be cured. Learning the merit of Doan's Ointment.

Plenty of Proof that Doan's Ointment will cure Piles, Eczema or any Itchiness of the skin. Read the testimony of a Janesville citizen.  
 Mr. L. Lawrence, of 403 S. Franklin St., engineer at the Janesville Electric Light Co., says: "I tried about everything recommended for itchesness of the skin, but found nothing to give me relief until I struck Doan's Ointment at the People's Drug store. I had an affection of the skin on my face caused from the burning oil about the engine and dynamo. My face itched and annoyed me, and rubbing it only made it worse and made it sore. I could hardly stand shaving, for the skin broke and bled. A few applications of Doan's Ointment removed the itchesness and healed up my face in a few days. I would not be without it so readily in my house, and I certainly recommend it to others in need of such a preparation."

Doan's Ointment is sold for 50 cents per box by all dealers. Mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

## The Best Decorative Ferns.

Where native ferns are sought for temporary indoor decorations, there are some which must be avoided on account of the delicate nature of their leaves. Naturally, the evergreen kinds will stand handling the best. The Christmas fern, Aspidium acrostichoides and Aspidium marginale, are the most popular. Onoclea sensibilis has a broad, tempting frond; but it won't last long, after cutting, nor will the cinnamon fern, though it has a fairly stout appearance, and nice long fronds.—Meehan's Monthly.

## ALLIED TROOPS AT HONGKONG

Residents of That City Fear a Great Uprising.

Continued From page 1.

From all sources come the same tidings that the Boxers have enormous supplies of modern rifles and ammunition. Boxer leaders had organized plans for massacring foreigners in all the treaty ports as well as in the interior, and a heavy reward was promised for each white head brought in. Rich loot was promised to all. Especial stress is laid by Tuan's generals on the opportunity the troops will have of seizing white women. The story receives the full credence of the Europeans here. It is reported that after the allied armies recaptured the native city of Tientsin last Saturday their shells set fire to the town. The Chinese before they fled killed all their own women, it is reported, to prevent their falling into the foreigners' hands.

### BOXER ARMY MENACES SHANGHAI.

Guns in Position Ready to Blow Up Foreign Settlements.

Shanghai, July 21.—The Boxers' menace is hourly approaching nearer. Shanghai city and the foreign settlements are full of suspicious characters and in the native quarters a continually increasing number of armed Chinese are arriving from the north. The troops in the Wocsung forts are being reinforced daily and a number of new guns have been placed in position. The foreign consuls today presented a united protest against these offensive preparations. Viceroy Li Kun Yih replied that he had ordered the work of strengthening the forts to cease immediately, but the local commander still persisted in the operations and refused to heed the viceroy's remonstrances. These forts completely command Shanghai and the guns already mounted are capable of blowing the foreign settlements to pieces in twelve hours.

### TROOPS TO CROSS THE PACIFIC.

War Department. Plans for Transport Service from West Coast.

San Francisco, Cal., July 21.—Plans for the redistribution of United States forces, in order to have as many troops as possible available for service in China, grow daily more definite. The Meade and Hancock, whose sailing dates will be about Aug. 1, will carry the remaining troops of the 15th Infantry, the 3d cavalry and 3d artillery and 500 marines. The 9th cavalry will also go from here early in August. The 1st cavalry, comprising eight troops, will go direct from Seattle, on the transport Glenogle, which has been chartered to carry them. The horses

of the 3d cavalry will be shipped from here on the Aztec Aug. 5; 750 horses of the 9th cavalry will go on the Stratgle on Aug. 7 and the remainder will be shipped from Seattle. The horses of the 1st cavalry will probably be sent out from Seattle on the Athenian.

### JAPAN STILL SENDS TROOPS.

Growing Sentiment Against Extended Operations, However.

Yokohama, July 21.—The leading papers still urge the dispatch of more troops to China, but there is a growing sentiment against Japan's engaging in extended operations. The decision of the government in the matter is not known, but another division from Sendai is on its way to embark at Ujina. Many refugees from China are arriving in Japan.

### Paris Hears Envoys Are Safe.

Paris, July 21.—The foreign office has received information from a Chinese source in which, however, absolute reliance may be placed, that the foreign ministers at Peking have not been massacred. According to this information on July 7 the ministers were attacked, and the legations burned, but the foreigners succeeded in crossing the city to Prince Ching's palace, which was then barricaded, and the Europeans were holding their own up to the time the news left, July 9. Since then nothing has been heard from Peking.

## Broken Lot Sale.

It has been our custom, after the Fourth of July, to go with a determination to clean up all remaining summer styles. We found it the most paying, rather than have accumulations to carry over. We have arranged in different lots, in both men's and women's, regardless of make, a goodly variety of the best styles to be found anywhere. Cost is all we ask for some; others 'way below. These are mostly tans—just what the season calls for.
